

What does Nano Silver Protection mean?

Nano Silver Protection refers to the effectiveness of the toothpaste in eliminating harmful microbes within your oral cavity. This protection comes from Nano Colloidal Silver which is known to be capable of eliminating more than 650 types of bacteria and viruses.

How is TruCare's Nano Silver Toothpaste different from other toothpastes?

TruCare's Nano Silver Toothpaste is specially formulated to enhance your oral and overall health by eliminating harmful microbes that enter your body through your oral cavity. The toothpaste contains the Ag+ RapidHeal Factor which is unique to TruCare, and is capable of accelerating the body's healing processes in the oral cavity.

NEXT GENERATION ORAL CARE

What are people saying?

"I used to have a serious ulcer issue that constantly caused me to lose my appetite. Now that's a thing of the past thanks to TruCare's Nano Silver Toothpaste!"

Eric, 35
Accountant

"After days of unbearable pain from the ulcer at the roof of my mouth, I decided to give TruCare's toothpaste a try. Upon using it, my ulcer was gone in just 3 days!"

Joseph, 45
Consultant
